The Starter Edition is the only version that is available for sale for the Mac and Windows platforms. The Windows version is available both as a trial and also as a fully functioning version. The Windows version is capable of playing over 50 different games. The Mac version is also sold as a trial and fully functioning version in a bundle with the discs for the major games. The difference between the two platforms is that the Windows version only uses the Microsoft Direct X technology whereas the Mac version is based on the Shlayer technology, the Mac version also has a 3D accelerometer built in to the mouse which when pressed allows you to tilt the screen whilst playing. Release history As of June 30, 2017, the following releases were officially supported. Software named "Starter Edition" that is also available for Windows and Mac was only officially supported from 2013, but it was only to be released as a full-version of games on the earlier formats. This version was retired in 2015 and is no longer compatible with macOS 10.12 Sierra. On July 22, 2017, they released a new version of Mac and Windows that contained all versions of games in the App Store. In this new version, all games would support cross-platform and the older macOS versions would also be updated with a newer macOS theme that provides a modern appearance. On April 16, 2019, the team released a version that was only available for the earlier formats. This version could only be played through the browser and supported only Windows and macOS. The newer versions would not be supported in this version. On June 8, 2019, the team released a Windows version, that also supports Steam and macOS, containing all versions of games and released on both Windows and macOS platforms. The macOS version of games for the older macOS versions could only be played through the web browser on Microsoft Edge and Mozilla Firefox.
