Is it possible to get my phone to ICS. 25-Jun-2012 Hey, I'm new to Kernels and to the Android world. I'm running a custom ROM, the ROM itself is developed by Skosh on his "Unknown" kernel for the same device. Is it possible to get my phone to ICS. 25-Jun-2012 I've just got my hands on a new Lenovo Ideapad K1 with Android 4.0 on board. I have all the official drivers installed (from my AT&T XDA Samsung Galaxy S3). I'm trying to get ICS on my tablet but I'm having a bit of a problem. I've noticed that the "Superuser" app does not work in the build 4.0.3 on my tablet. Any ideas? 22-Jun-2012 I have a build #120607 for Lenovo Ideapad K1. I've tried the following: Unzipped and installed the ROM, cleaned data and cache, re-rooted phone, tried different USB ports on PC and tablet. All to no avail. What am I missing? Thanks. 21-Jun-2012 Hi Guys, I have a Lenovo Ideapad K1 running 2d92ce491b
